

HYDRIM® G4

L110W G4 Instrument Washer

Automated Instrument Washing the first step in the sterilization process

Efficient

The time saved by automated washing compared to manual cleaning is approximately 1 hour of labor for every nine procedural set-ups¹. HYDRIM® G4 cycle times are as fast as 44 minutes from start to dry. HYDRIM® ensures that every set of instruments receives the same validated cleaning process.

G4 Technology

There is nothing like SciCan's G4 Technology. The large touch screen gives in-depth cycle information and allows users to view current operations.

From the networking portal, users can access cycle history and validation information. If there is ever a cycle fault, the G4 software will send an email to the office and the service technician, allowing remote troubleshooting.

Safe

Avoid the many steps involved with manual washing or using ultrasonic cleaners. Steps such as pre-soaking, scrubbing and drying instruments before sterilization increase the exposure to blood and body fluids and the risk of sharps injuries.

Automated instrument washing reduces physical handling of contaminated instruments. Using the HYDRIM® G4 instrument washer is the safer and more effective option, decreasing the risk of exposure and injuries. HYDRIM® G4 saves time and money—making it a worthy investment for today's standard of care.

Capacity

HYDRIM® L110W G4 has a 10 full-size cassette capacity allowing offices to turn over 2500 instruments in a 10 hour day.

HYDR/M L110W G4 Specifications

Unit Size

Dimensions (W x H x D):	598 x 850 x 600 mm / 23.54" x 33.5" x 23.75"
Depth with Door Open:	1200 mm / 47"
Weight:	80 kg / 176 lb

Cycle Times*

Rinse and Hold	17 min
Regular Wash + Dry	25 min + 10 min
Heavy Duty Wash + Dry	34 min + 10 min

Water Consumption Per Cycle

Rinse and Hold	16 L / 4.23 Gal
Regular Wash	24 L / 6.34 Gal
Heavy Duty Wash	32 L / 8.45 Gal

Electrical Connection

North America	208-240 V, 15 A, 60 Hz
Running Noise	< 78 dB (Wash)

Water and Drain Connections

Hot and Cold Water Tap Connection	3/4" Garden Hose, Male
Recommended Hot Water Temperature	60° C / 140° F
Cold Water Temperature	< 30° C / 86° F
Inlet Water Pressure	1-10 bar / 14.5-145 psi
Drain	2 cm / 3/4"

*Actual cycle times will vary with incoming water temperature and pressure.
